Signing Smart™ Play Classes for Children and Workshops for Educators Leslie Powell, M.S.

Meet the Instructor

Leslie Powell, M.S.

Leslie Powell earned a Bachelors Degree in Early Childhood Development from the University of Vermont and a Masters Degree in Deaf Education from Western Maryland College (now known as McDaniel College). She is a Certified *Signing Smart™* Instructor and Master Teacher, also Licensed to present Parent Workshops and Workshops to Early Childhood Educators. Before having children, she taught in early childhood settings including 5 years' experience as a teacher at a school for the Deaf. Leslie used American Sign Language signs with her own children when they were babies and still finds it helpful through the elementary school years. Leslie interprets for a weekly Bible Study during the school year and she is also an Independent Consultant for a scrapbooking company. She has been working with *Signing Smart™* since 2003 and lives in Centennial, Colorado with her husband and three children.

EXPERIENCE THE MAGIC OF SIGNING SMART

Signing Smart™ Sign Language Programs for Hearing Infants and Toddlers

Offered by Leslie Powell, Master Teacher

Looking to make signing with your hearing baby or toddler simple, fun, and successful from the very first day? *Signing Smart* makes it easy! With our research-proven strategies and techniques, there's no need to sign with your infant or toddler every time you say a word! Our materials and programs use American Sign Language (ASL) signs and teach you when and how to sign most effectively, and which signs to use within routines and play. When you teach your baby signs using *Signing Smart* strategies, you open the door to early communication, facilitated speech, increased intimacy, and long-term learning! *Signing Smart* Play Classes are designed for families with infants and toddlers aged 6 months to 2 years old.
