Meet the Instructor

My professional background is in Experiential Education, and I have been teaching children since 1997. I have experience with developing curriculum for other activities, so I thoroughly researched the available sign language programs for infants and toddlers before I chose which curriculum I wanted to teach. The decision to choose Signing Smart was very easy. I was impressed with the strategies even before I saw them in action. I immediately began using Signing Smart methods with a 16 month old child in my care at the end of 2005, and I was amazed at how quickly she signed back!
